

Serving the Environment

Blue Boar are an experienced provider of fully-managed dredging and land restoration services, delivering cost-effective solutions which are designed to generate high-quality results within a framework of dedication to the environment. We are one of only two approved national UK contractors for British Waterways, giving us a wide range of skills and experience which our other clients can also benefit from. Services offered include:

- Lake, river, canal and pond dredging
- Water-related civil engineering
- Water edge redevelopment
- Towpath redevelopment
- Land restoration
- Bio-engineering
- Consultancy
- Piling

We are proud to have many happy customers who are always willing to tell us – and other customers – how pleased they are with the service we offer. If you would like to find out more about any of the projects outlined on the reverse of this leaflet, please visit our website at www.blueboarcontracts.co.uk and click on the 'Case Studies' button.

Using an innovative approach to help British Waterways ensure that the River Weaver navigation remains attractive and accessible

"I had used Blue Boar in the past and was very keen to get them back as their performance was very good. Their ability to find an appropriate solution was a real differentiator. We would be very happy to use them again and in fact they are doing more work for us this year elsewhere in the region."

Neil Rice - Senior Engineer
Wales and Border Counties Business Unit, British Waterways

Helping Cheltenham Borough Council restore a grade two listed park to its former glory

"I was very satisfied with the work that Blue Boar carried out and with their overall service. The whole project went smoothly from start to finish... We do not have any more lakes which require de-silting, but if we did, Blue Boar would definitely be invited to tender again. They were very co-operative and a very good company to work with."

Geoff Beer - Senior Engineer, Design Services Section
Built Environment Division, Cheltenham Borough Council

Working as part of a team to carry out major restoration works on Queen Victoria's diamond jubilee park

"Blue Boar worked closely with us... and brought their part of the work in on time and to budget despite the shifting timescales. What they do is not easy, but they were a very good company to work with and performed well in an area that is generally quite unpredictable."

Howard Price - Partner, Ashmead Price Landscape Architects

Helping to protect 190 years of English waterways heritage

"Blue Boar have done everything that they said they would do and we are very happy with the work they have done... we are very happy with the quality of the work and with their flexibility - and we would be pleased to see them back again in the future."

Mark Baker - Canal Manager, Devon County Council
