

imagine a phone system that's as individual as your business.

With Samsung's OfficeServ 7000 series it's not that hard to imagine.

Communication brings people together - and a converged communication infrastructure brings people and technology together. Both of these actions can enhance your business and deliver increased capabilities and efficiencies. Communication is also the driving force behind any organisation - and your communication infrastructure is a key asset when it comes to providing resilient and effective connections to the outside world.

Designed for small to medium size businesses which are expanding and developing, the Samsung OfficeServ 7000 series is a scalable range of systems that grow with you and can be tailored to suit your needs. It's a next generation IP platform that provides an IP based wired and wireless solution for voice and data communication, enabling you to make an investment that you can carry into the future.

The full OfficeServ range runs from the 7100 for small businesses* through to the 7200 and 7400 for medium to larger organisations - making the OfficeServ 7000 series one of the most efficient and flexible business communication platforms available today. It will expand as your business grows with little redundancy from your original investment, so whether you are a small office or a multi site organisation we have a solution that is right for you.

Supported by an extensive selection of enhanced business applications, the OfficeServ 7000 range can meet your individual needs, with technology that makes sense for the future.

Personal productivity

Screen popping and the ability to dial numbers directly from the PC allows individual users to speed up repetitive process and so make the working day easier and more productive.

Mobility

Whether you are looking for a DECT or a WiFi solution for staff who are mobile around your premises, we have the right answer for your business.

Call centres

The Samsung CMS solution provides comprehensive management information for the type of call centres which are now becoming a key part of many businesses.

Hospitality

Our hospitality solution is suitable for every business type and is highly scalable, yet does not compromise on functionality. From small hotels and guest houses through to large corporate hotel chains, we can support your specific requirements.

Choosing the right telephone system for your business doesn't have to be complicated. It all begins with having a Samsung OfficeServ 7000 series at the heart of your solution.
