

# NEED CLEAR GUIDANCE FOR YOUR COMMUNICATIONS?

Cisco and Voyager Networks. Proving the way ahead.

**You are invited to**  
the Cisco Voice over IP Seminar  
in Manchester or Heathrow, hosted  
by Voyager Networks.

Cisco Didsbury - Manchester, 16th July 2002 • Cisco Bedfont Lakes - Heathrow, 18th July 2002

When you're about to embark upon a new journey and the way ahead is uncertain, someone with experience that you can depend on to guide you along the way will make all the difference - complete peace of mind for your journey.

With over 4 years experience at implementing VoIP for organisations such as the **Football Association**, **North Yorks** and **East Sussex Fire Authorities** and the **Lawn Tennis Association**, Voyager really does have the skills you need to navigate towards a converged communications strategy.

You know that implementing Voice over IP as part of your network development can save money on calls and infrastructure, improve your integrated multimedia communications management and also reduce your network administration time. But everything you've probably heard is also telling you that it's going to be complicated, confusing and fraught with difficulty.

**Voyager and Cisco can show you that it doesn't have to be like that.** We're a trusted guide in a complex environment and our experience ensures that you minimise the risks along the way.

Come along to one of our **FREE half-day seminars** and hear live case studies from the North Yorks Fire Authority at the Manchester event or the Lawn Tennis Association at the Heathrow event. Then take a tour of Cisco's demonstration facilities and see VoIP in action!

You can register for one of these via the Internet:  
[www.pleaseregisterme.com/cisco](http://www.pleaseregisterme.com/cisco) or by  
Telephone on **0870 750 1011**
